

STAFF REPORT

City of Lancaster

CC 4
09/23/14
MVB

Date: September 23, 2014

To: Mayor Parris and City Council Members

From: Kelvin Tainatongo, Assistant to the City Manager

Subject: **Amended City Hazard Mitigation Plan for 2013 - 2018**

Recommendation:

Adopt **Resolution No. 14-60**, approving the amended City Hazard Mitigation Plan for 2013-2018.

Fiscal Impact:

None.

Background:

The Federal Disaster Mitigation Act of 2000 requires that local governments develop and submit local hazard mitigation plans to the Federal Emergency Management Agency (“FEMA”) as a condition of receiving FEMA Hazard Mitigation Grant Program Funds after November 2004. A committee comprised of the City Manager and members of various city departments developed the Hazard Mitigation Plan 2013-2018 (HMP) to serve as the hazard mitigation plan for the City of Lancaster. The Committee received additional feedback from the community during the drafting of the Plan. Subsequently, the City Council approved and adopted the Hazard Mitigation Plan on December 11, 2013 by Resolution No. 13-65. The adopted Hazard Mitigation Plan was submitted to the State of California Office of Emergency Services (CAL-OES) for approval, which was granted on May 15, 2014, subject to required modifications. FEMA granted approval on the HMP on August 6, 2014 contingent upon the adoption of modifications to the Hazard Mitigation Plan by the City of Lancaster City Council as specified in this Resolution.
