

STAFF REPORT
City of Lancaster

PH 3
06/26/07
RSL

Date: June 26, 2007

To: Mayor Hearn and City Council Members

From: James R. Williams, Public Works Director

Subject: **LS-3 Street Light Plan Review and Inspection Fee**

Recommendation:

Adopt Resolution No. 07-125, establishing a LS-3 Street Light Plan Review and Inspection Fee schedule to become effective September 1, 2007.

Fiscal Impact:

The fees collected will offset the cost to provide the LS-3 Street Light Plan review and inspection services.

Background:

On February 27, 2007, City Council approved as a cost sharing measure, the placement of new street lights on the LS-3 Rate Schedule (City owned and metered for energy use) and directed staff to proceed with implementing the change to be effective on September 1, 2007. On June 12, 2007, City Council introduced Ordinance No. 882, establishing development requirements related to street lights to be placed on the LS-3 Rate Schedule, and establishing a fee for reviewing LS-3 plans.

This Resolution establishes the Plan Review and Inspection Fee for all LS-3 street lights to be installed in the City of Lancaster effective September 1, 2007.
