STREET LIGHTS IN RURAL AND SEMI- RURAL ZONES (RR AND SRR)	05/22/89	1 of 1

BACKGROUND AND PURPOSE:

In an effort to reduce nighttime accidents, but still retain some of the rural characteristics within rural and semi-rural zones on arterial, secondary arterial and local streets, the following policy for street lighting was adopted.

POLICY:

1. Street lighting to be required on all new developments with rural and semi-rural (RR and SRR) designations consistent with the following:
 - a. Along all major arterial streets.
 - b. On secondary arterial streets within 300 feet of an intersection with a major arterial street and within 150 feet of any other public street intersection.
 - c. At all interior street intersections.

Adopted by City Council minute action (CC12-160) - 05/22/89
