**INFORMATION SUMMARY (33433 REPORT)
FOR THE
SALE OF REAL PROPERTY
WITH PROPOSED HOMEBUYERS**

This summary is provided pursuant to Section 33433 of the California Community Redevelopment Law (Part 1 of Division 24 of the Health and Safety Code).

1. Cost of Project to the Agency:

The Sale of Real Property Agreements between the Lancaster Redevelopment Agency and proposed Homebuyers requires the Agency to transfer property to the homebuyer to complete acquisitions of the properties. The cost of the Properties to the Agency is determined based on the following information:

- a. Acquisition Cost of the homes in the Desert View Master Vision Plan Neighborhood Revitalization area range from \$72,000 to \$106,000. The project homes are vacant bank foreclosure properties acquired for the purpose of creating affordable homeownership and revitalizing the neighborhood.
- b. There are no clearance costs for this project.
- c. There are no relocation costs for this project.
- d. Improvement Costs to the project homes include substantial rehabilitation including drought tolerant landscaping to meet the new California landscape standards, increased hardscape, energy efficient dual paned windows, and energy efficient appliances to assist and reduce the long-term costs for the new homeowners. Property rehabilitation costs range from \$48,470 to \$73,155.
- e. There are no finance costs for this project.

2. Estimated value of interest to be conveyed by the Agency to proposed Homebuyers determined at highest and best use permitted by the Redevelopment Plan:

The estimated value of the interest to be conveyed at its "highest and best use" is based on the appraised value of each home upon entering into a purchase agreement. The appraised values of the homes will range from \$120,000 - \$140,000. The value is based on an independent appraisal of the property valued at the time of sale.

3. The estimated value of interest to be conveyed at the use and with the conditions, covenants and restrictions (CC&R's) required by the transfer of the property:

Section 33433 of the California Health and Safety Code requires the Agency to identify the value of the interests being conveyed at the highest use allowed by the properties' zoning and the requirements imposed by the redevelopment plan. The valuation must be based on the assumption that near-term development is required, but the valuation does not take into consideration any extraordinary use and/or quality restrictions being imposed on the development by the Agency.

Page 2

The Agency's properties are and will remain fully restricted for a 45-year affordability period. Pursuant to California Redevelopment Law, the agency must utilize a portion of the Redevelopment funding for low and moderate-income housing. Restrictions on the residential properties in the program greatly reduce the resale viability of the units through affordability covenants, and mandatory equity sharing with the Agency at the time of sale, if it is sold prior to expiration of the agreement. The value to be conveyed is the fair market value of the Agency Parcels based on the appraised value of such parcels at their "highest and best use," with restrictions on the property ownership and use. The estimated value of the interest to be conveyed may range from \$110,000 to 130,000, based on an independent appraisal of the property valued at the time of sale.

The Agency is authorized under the Community Redevelopment Law, Sections 33334.2 and 33334.6, *et seq.* to sell or lease property for less than its fair market or fair reuse value if the disposition of the properties meets the affordable housing requirements, as the properties in the Desert View Master Vision Plan Neighborhood Revitalization area does. Analysis of the "estimated value of interest" must take into account the fair market value of the property and the Agency's obligation to assist with a growing need within the community for affordable housing.

4. The acquisition price which the homebuyer will be required to pay during the terms of the Real Property Transfer Agreement:

The homebuyer will receive title to the property subject to the terms and conditions as outlined within the Sale Agreement. The disposition price of these properties, with a declaration of affordable housing and conditions, covenants and restrictions (CC&R's) limiting the future sale of these properties, may range from \$120,000 to \$140,000.

5. Explanation as to the reason why the sale of the property will assist in the elimination of blight:

In connection with the adoption of the Redevelopment Plans for the Redevelopment Project Area 5, based on the evidence presented at the public hearing, the City Council found that:

"(a) The Project Area is a blighted area, the redevelopment of which is necessary to effectuate the public purposes declared in the Community Redevelopment Law of the State of California and specifically that the Project Area is characterized by properties which suffer from economic dislocation, deterioration or disuse because of one of the following factors:

- (1) economic dislocation, deterioration, or disuse resulting from faulty planning;
- (2) the subdividing and sale of lots of irregular form and shape and inadequate size for proper usefulness and development;

- (3) the laying out of lots in disregard of the contours and other topography or physical characteristics of the ground and surrounding conditions;
- (4) the existence of inadequate public improvements, public facilities, open spaces and utilities which cannot be remedied by private or governmental action without redevelopment;
- (5) the prevalence of depreciated values, impaired investments and social and economic maladjustments.
- (6) the existence of lots or other areas which are subject to being submerged by water;

which conditions cause a reduction of, or lack of, property utilization of the area to such an extent that it constitutes a serious physical, social or economic burden on the community which cannot reasonably be expected to be reversed or alleviated by private enterprise action along;

The City council also declared that the purpose and intent of the City Council in adopting the Redevelopment Plan were:

“(1) The elimination and prevention of the spread of blight and deterioration and the conservation, rehabilitation and redevelopment of the Project Area in accord with the General Plan, design guidelines, specific plans, the Plan, the Plan Amendment and local codes and ordinances.

“(2) The promotion of new and continuing private sector investment within the Project Area to prevent the loss of, and to facilitate the recapture of commercial sales activity.

“(3) The achievement of an environment reflecting a high level of concern for architectural, landscape, urban design, and land use principles appropriate attainment of the objectives of the Plan and the Plan Amendment.

“(10) The reduction of the City’s annual costs of the provision of local services to and within the Project Area resulting from blighting conditions.”

The Report to City Council in connection with the adoption of the Redevelopment Plan sets forth the reasons for selection of the Project Area as follows:

The purposes of the California Community Redevelopment Law would be attained by the proposed Central Business District Redevelopment Project through the removal or rehabilitation of physically obsolete or substandard structures and other blighting influences; the rehabilitation, with owner participation, of existing commercial and industrial buildings; the installation, construction, reconstruction, redesign, or reuse of streets, utilities, curbs, gutters, sidewalks and other associated public improvements as permitted by the Lancaster General Plan and Zoning Ordinance; the construction and/or reconstruction of various flood control and drainage facilities; the replacement, installation and improvement of domestic sewage distribution facilities to reduce public health and safety hazards; the assemblage of land into

parcels suitable for modern, integrated development with improved pedestrian and vehicular circulation; the improvement and provision of adequate recreation facilities; the provision of other public facilities including educational facilities; and the development and redevelopment of the Project Area in a manner consistent with the policies and goals of the Lancaster General Plan. The Redevelopment Plan of the Project would implement the California Redevelopment Law. The basis for implementing the Redevelopment law can be stated as follows:

The Foreclosure Rehabilitation Program preserves housing and removes blight in the City's mature neighborhoods through substantial rehabilitation. It also provides affordable homeownership opportunities for those who qualify. Without encouraging homeownership, the value attributed to the land as a resource would otherwise continue to experience conditions of physical deterioration and blight due to poor use of the property, squatting and illegal dumping.

Additionally, the transfer of these properties will also help to eliminate blight by promoting rehabilitation of not only the Agency's project homes, but those around them. Sale of the rehabilitated homes is the second phase of a multi-pronged approach to revitalizing this neighborhood.

Section 1. The Lancaster Redevelopment Agency hereby finds and determines that based upon substantial evidence provided in the record before it, (i) the disposition of the Property pursuant to the Agreement is in accordance with the covenants and conditions governing the transfer of the Property, and complies with the purposes of the Redevelopment Plan for the use and maintenance of the Property, which is in the best interest of the community, and (ii) the consideration for the disposition of the Property pursuant to the terms and conditions of the

Agreement is not less than either the fair market value or the fair reuse value in accordance with the covenants, conditions and restrictions imposed under the Agreement and the costs required under the Agreement. The Lancaster Redevelopment Agency further finds and determines that the disposition of the Property pursuant to the Agreement (i) will assist in the elimination of blight by requiring maintenance of the Property in accordance with the Agreement as residential workforce housing and (ii) is consistent with the implementation plan for the Redevelopment Project adopted by the Agency pursuant to Health and Safety Code Section 33490.

Section 2. The disposition of the Property by the Agency to proposed homebuyers pursuant to the Agreement and any changes mutually agreed upon by the homebuyers and the Housing and Neighborhood Revitalization Director as are minor and in substantial conformance with the Agreement submitted herewith, which establishes terms and conditions for the transfer of the property, are hereby approved by the Lancaster Redevelopment Agency.

Section 3. The Lancaster Redevelopment Agency concurs in authorizing the Executive Director of the Agency to execute the Agreement and to take all steps, and to sign all documents (including the Grant Deed) necessary to implement and carry out the Agreement on behalf of the Agency.

Section 4. The Lancaster Redevelopment Agency hereby finds and determines that the environmental status of the project remains consistent with the environmental impact reports (EIR) prepared for Redevelopment Project Area 5 and the Agreement does not add new environmental impacts and neither a supplemental nor a subsequent EIR is required.
